errors pointed out the

time. If the latter they

have the figures being [illegible]

incurred [illegible] fail.

1 The Government order to be quoted in the Report is No: 1795 Public, dated 12 September 1883.

2 The figures of outturn for dry diffe[r] as follows:—

soil.	Ms. Ms. as in the Report.	Ms. Ms. as in the table.	Ms. Ms. in accordance with Ryots Statements.
7.3 & 8.2	310	305	about 300.
8–3.	247	247½	about 200. for inferior land
8–4	180	180	
8–5	112	112½	about 100.

Correct figures must be given.

3. The outturn 180 Ms. Ms. for 8–4 dry doe[s] not arrive at 5 annas 'Proposed rate'. The attention is invited as to how the figures should be corrected in accordan[ce] with the statements taken from the Ryots.

4 The

marked in pencil.

The details of Cultivation expenses for the best dry land i.e. for Rs. 10-11-9. should be given in the body of the report. It would also be better if stated in the report as to how the variations of expenses for each sort have been arrived at.

The figures now given under this as well as under 'net' and 'net' should also be checked and corrected in the Table as well as the report.

The figure of outturn of the best wet in the report differs a little from the table. Correct figure may ... requisite corrections made in the res... places.

through out the columns of the whole may struck off omitting the same in the respective places of the report —

5

9. Cost of bullocks "under wet" comes to Rs 1-9-9. for 3 Kulis instead of 5 Kulis of wet land that could be ploughed by a pair of oxen in a year.

10. The variation of the Cultivation expense for 7-3. soil not being given, it is to be corrected with reference to the Statement of Ryots.

11. The whole figures of the Table of Rates for wet land should once more be worked out and the figures must be corrected in the report in their proper places.

12 The Cultivation expenses for dry land vastly differ from that of the Madura Report

Proceedings of the Director of Revenue Settlement and Agriculture.

Read letter No. – dated 15th December 18

from Mr. A. Butterworth Assistant Collector Sou[th]
Canara attached to No. III Settlement Party, submi[tting]
his settlement report.

The foregoing report is forwarded to [the]
Deputy Director for report as to how far the cla[ssi]
-fication, grouping, grain values, cultivatio[n]
expenses &c adopted by Mr. Butterworth corresp[ond]
with those of the settlement department.

2. The Member in charge observes that M[r.]
Butterworth has estimated the cultivation [ex]
-penses for dry lands as nearly equal to those
for wet lands and that in statement B. C[holum]
Cumboo, gingelly oil seed, Varagu and Mille[t]
have been shown as wet crops.

	Dry	Wet
7-2 & 8-1 –	13-11-9.	11-9-7.
7-3 & 8-2 –	8-14-11.	10-11-5
8-3.	7. 12-3.	9-1[?]
8-4.	4-12-4.	
8-5.	3-7-10.	

For VIII-4 dry is ...

[...]06-9-0 the correct figure: this necessitates [...]hange in the rates arrived at.

[...] The figures in the report as well as in the [...]tements should be examined in the Deputy [...]tor's office before it is re-submitted to this [...]ice.

[...] The usual certificate should be sent [...] the Dy Director's report for countersignature [...] submission to the Board and Government.

READ letter No. 24 dated 17 January /86 from the Deputy Director of Revenue Settlement Party No. III forwarding copy of his letter No. 309 of 31st November 1885 regarding travelling allowance.

Col Stuart took the matter into his own hands by practically drawing the allowance continuously during the whole mon[th] without travelling - for his change of Camp for a few miles were obviously made not in the interest of the public service but solely in order to evade the operation of 10 days rule.

2. The Ag Director therefore declines ... with the Deputy Director

request to have him exempted from
the operation of the 10 days rule.

It is the plain duty of every officer
to, accept the decision of Govern-
ment on such questions as the
alteration of travelling allowance
rules whether such alterations
happen to suit his personal
Convenience or not.

DEPARTMENT OF REVENUE SETTLEMENT AND AGRICULTURE,

Camp Palani.

Proceedings of the Director of Revenue Settlement and Agriculture.

READ letter No 38 dated 8th Fe[b.] 1886 from the Deputy Director of Rev: S[ett.] Party no III requesting to reconsider the [question of] making Palani as his head quarters.

The Ag Director in disposing of [this] letter has only to repeat that he can[not] countenance the ~~[illegible]~~ by any o[fficer] subordinate to him of any rule whi[ch] Government have been pleased to ma[ke] and as the case has been fully [pleaded] before the rule was affirmed (vide [G.O.] 4th October 1883 No 1233), the questio[n of] the hardship of the rule is now irre[levant.] A rule that is harsh must be obeye[d] just as fully as a rule that is not h[arsh.] Colonel Stuart has not attempted t[o] deny that in October and November 18[..] he

evaded the rule: that, in fact, such evasion was the sole object of his changes of camp in those months.
Under these circumstances the warning dated 12th November 1886 and the retrenchment dated 19th December 1886 must stand.
2. The change of Head Quarters ordered in the Ro: of the date last mentioned is cancelled, since the Acting Director's power of retrenchment will sufficiently enable him to prevent any future evasion of the ten days' rule; and as the operations of the party in Palani Taluk will end in less than two months.
If Colonel Stuart still considers himself aggrieved by the November retrenchment, and desires that the case should be submitted to Government the Acting Director will send it up.

Proceedings of the Director of Revenue Settlement and Agriculture.

READ letter No. 1255/487 dated 9th November 1886 from the Dy. Director of Party No. I affording explanation on the objection statement No. 3466 dated 5th idem and asking if there is any 20 Rs classifier required to be transferred from another Party in place of Pullayya

---

The Ag. Director does not at all approve of allowing Gumastas to be employed to do Classifiers work for them in a language which they do not understand: such a system is thoroughly bad and cannot be countenanced. — Pallayya may be employed in Party No. I as the men whose transfers

R No 193

transfers are to be made from other parties, are ignorant of Telugu.

DEPARTMENT OF REVENUE SETTLEMENT AND AGRICULTURE,

Madras, 11th March 1886.

Proceedings of the Director of Revenue Settlement and Agriculture.

READ letter ~~from the~~ No. 48 dated 19th February 1886 from the Deputy Director, Revenue Settlement Party No. 3 requesting for reasons shewn, to cancel the retrenchment of his travelling allowance.

In 38 consecutive days (24th September — 31st October) Colonel Stuart drew travelling allowance for 35 days, and marched an aggregate distance of 26 miles. (Vide tabular statement hereto appended).

2. In 30 consecutive days (1st November — 30th November) he drew travelling allowance for 29 days, and marched altogether 21 miles.

3. In the period of 68 days five halts of precisely ten days took place. The longest march was nine miles: there were two marches of six miles: two of five miles; four of four miles.

4. In

4. In the middle of the second period (i.e. the month of November) Colonel Stuart received warning against what the Ag Director conceived to be intentional evasion of the "ten day's rule".

5. As this warning was disregarded travelling allowance for the last of the five ten-day halts was disallowed.

6. Colonel Stuart now declares that his changes of camp were not arranged with a view to evade the ten day's rule.

7. The retrenchment is, on the strength of this allegation, withdrawn.

8. But (1) since so far as the public purse is concerned unconscious and conscious evasion of the rule are quite the same; and (2) because it is every officer's duty to take care that he does not unintentionally contravene the spirit while he adheres to the letter of any rule that Government may be pleased to make, the Acting Director hereby warns Colonel Stuart that if hereafter his movements shall as a matter of fact amount

amount to an evasion of the "ten day's rule" the

91

Ag Director will not ask any questions about

intent but will freely retrench the bills, and

eventually submit the case to Government in

the event of remonstrance on Colonel Stuart's part

PROCEEDINGS OF THE BOARD OF REVENUE.

READ—the following letter from L. R. BURROWS, Esq., Acting Collector of Cuddapah, to the Secretary to the Board of Revenue, dated 27th June 1882, No. 304 :—

In forwarding, herewith, a copy of a letter from the Acting Sub-Collector, dated 10th June 1882, No. 226, I have the honor to state that the point for decision appears to be whether in the case of unenfranchised Village Service Inams compounded second-crop assessment ought to be levied. Mr. Thomson has decided that it should be levied on lands classed as one crop in the old Tarwar accounts : first, because the holders knowingly agreed to the compounded charge ; second, because the Inam lands are to be soon enfranchised on the new settlement rates.

2. Referring to Board's Proceedings, No. 2299, dated 2nd December 1872, I doubt whether the compounded second-crop assessment ought to be levied. The arrangement entered into with the Settlement Department will take effect naturally when the Service Inams are enfranchised, until which time the rules applicable to the tenure as it exists at present hold good.

3. Requesting the Board's orders on the subject, I have, &c.

ENCLOSURE No. 1.

From J. THOMSON, Esq., Acting Sub-Collector, to the Acting Collector of Cuddapah, dated Madanapalle, 10th June 1882, No. 226.

Board's Proceedings, No 2299, dated 2nd December 1872, directs that "Fasaljasti" or additional assessment for a second crop grown by Government water on single-crop wet lands should not be charged until further orders on Village Service Inam Lands ; and the only exception admitted to this rule is in the case of dismissed village servant's Inam lands continued to be held by the dismissed servant—*vide* Board's Proceedings, No. 2411, dated 27th August 1874.

2. In the present Revenue Settlement, some of the working officials and holders of Service Inams of both double and single crop lands—as entered in the Tarwar account prepared in 1803, or about that time,—have got their Inam lands compounded for second crop by agreeing to pay permanently a fractional part (one-third to one-fifth rupees) of the assessment on them.

3. During the Jamabandi Settlement of the Váyalpád Taluk for the current fasli, I decided that Inam lands entered as two-crop lands in the Tarwar account which had been nevertheless compounded for second crop in the present settlement need not pay the compounded second-crop charge, as the composition was evidently made ignorantly, and the Inams being registered as two-crop in Tarwar were liable to no charge whatever for a second crop grown on them. In the case of single-crop Inam lands so compounded, I ordered that, whether the lands were grown with second crop or not, the compounded charge should be entered in the accounts and collected from the current fasli. My reasons for this order being that (1) the holders knowingly agreed to the compounded charge, and (2) that the Inam lands are to be soon enfranchised on the new settlement assessments.

4. All the Inamdars, however, objected to the charge being made from this fasli as contrary to the Board's order referred to at the head of this letter, and said that they never intended or believed that the charge would be made until the Inams were actually enfranchised. There is, however, no such condition in the written agreement which they made with Mr. Cox. The amount charged in the accounts for the current year in accordance with my orders is, for the whole taluk, Rs. 316-6-0.

5. In these circumstances, I have the honor to request that you will be good enough to let me know whether what I have done is correct or not. If not, I shall in the case of the exacted compounded charge direct the suspension of collection of the amount and the writing off of the same as irrecoverable. As the matter is of some importance and not hitherto, so far as I know, decided, I beg to suggest a reference to the Board of Revenue for their orders.

Reference on the above, dated 8th August 1882.

Referred for the remarks of the Third Member in charge of Settlement.

(Signed) E. GIBSON,
Acting Secretary.

To the Third Member, Board of Revenue in charge of Settlement, with Collector's letter, in original, to be returned.

READ—the following letter from J. H. M. COX, Esq., Deputy Director of Revenue Settlement, Cuddapah, to the Acting Third Member, Board of Revenue, in charge of Settlement Department, dated Madanapalle, 6th September 1882, No. 749-488; and endorsement by W. WILSON, Esq., Acting Third Member, Board of Revenue, in charge, dated 25th September 1882 :—

In reply to your foot-note of the 10th ultimo, No. 1971-379, I have the honor to state that, as explained in my letter of the 4th idem, No. 617-415, Inams have been registered in our accounts as single or double crop, not with reference to the Tarwar accounts, but according to the entries in the A. Register, and when the latter does not contain these details, reference has been made to the Adungal. Inams thus registered as double crop have sometimes been inadvertently entered in the applications given in by the Inamdars for compounding. This is generally rectified by checking, but there are no doubt instances in which such errors have escaped notice, the Inams being inserted in the Settlement Register as "compounded for." In such cases they must be corrected.

2. On a reference to the Collector, I find that subsequent alterations in which single-crop Inams have been classed as double crop under Board's Proceedings, No. 855, of the 28th March 1876, and Inam Commissioner's Official Memorandum of the 8th January 1870, No. 34, have not been noted in the Tarwar accounts, but only made in the Inam Registers, and there are cases he tells me where the particulars of single and double crop are not entered at all in either the Tarwar account or Inam Register. In such cases, and where no registers were prepared for Inams not settled by the Inam Commissioner, it will be impossible to compare our accounts with the Inam Register as proposed in your Proceedings of the 10th ultimo, No. 1967-375. The Tarwar or Revenue accounts must then be had recourse to.

3. Considering the stage at which our work has arrived in this district, I would again beg that our accounts might be left as they are, and that separate errata memoranda be prepared where necessary to be attached to the printed Settlement Register of each village in all the eleven taluks of the district. These memoranda might perhaps be prepared by the Curnams who have, I believe, the necessary data by them taken from the Tarwar accounts, or by one of the Taluk establishment who may be acquainted with Mahratta, in which language the original accounts are written.

Endorsement, No. 2385-36.

Submitted for the information of the Board of Revenue, with reference to their Proceedings, No. 3626, dated 8th ultimo, the enclosures of which are herewith returned.

2. Mr. Cox's explanation of the way in which the mistakes were made and his proposed method of correcting them are neither of them satisfactory, and he has been directed to amend the records with reference to the entries in the Tarwar as the oldest accounts. The Settlement Department had of course no business to assess even with a compounded charge Inams which were granted as double-crop Inams. In the case of single-crop Inams composition for second crop was perfectly right when the holders agreed to it.

3. With reference to the objection to charge this composition for the ensuing fasli on the ground that in Board's Proceedings, No. 2299, dated 2nd December 1872, it was directed that Fasaljasti was not to be charged on Service Inams till further orders, I have to observe that the Board's order was based on two considerations—

(1)—that they had not been enfranchised;
(2)—that they might have to be re-settled with reference to the revision of assessments.

Neither of which, as it seems to me, has any connexion with the propriety of a charge for water supplied for the irrigation of a second crop, and I have to suggest that the "further orders" alluded to in the Proceedings be now issued and that Fasaljasti be charged on all single-crop lands, Inam or otherwise, on which a second crop is raised.

RESOLUTION—dated 7th March 1883, No. 660.

From the papers received with Mr. Wilson's letter read above, it is clear that the classification of the Service Inams in the Cuddapah District has not been correctly carried out with reference to the Tarwar accounts. It also appears that in some instances even the Tarwar accounts do not furnish information as to whether the Inams were originally assessed as single or double crop land. Under these circumstances, the Board agree with the Collector in considering that, pending the revision of the Village Establishments, Fasaljasti should not be charged on Service Inams. The imposition of such a charge now will affect the emoluments of the village officers.

2. Pending the revision of this establishment, the Director of Settlement will be requested to see that the classification of the Inams is amended by the Settlement Officers as already directed by him. In cases where the Tarwar accounts do not show whether the Inams are single or double crop, the classification should be made with reference to the rates of assessment fixed on them as compared with those of other Inams in the same or adjoining villages for which the distinction of single and double crop is entered.

Sir

I have the honor to state that according to the Settlement Register the extent of Urkat (Village site) Poramboke No 447 in Erode Village Erode Taluk is 11 acres and 3 cents of which 447 A 5 acres and 50 cents in extent was given to Messrs Fischer & Co and No 447 B measuring 5 acres and 53 cents was given to the Erode Municipality whereas Mr Gompertz the representative of Messrs Fischer & Co is now in possession of 7 acres and 70 cents and the munici-pality of only 3 acres & 35 cents the entire extent of the field in question having

been found out by the First class Revenue Inspector of the Erode Taluk on measurement to be acres 11·5 no subdivision stones are to be found.

The Subdivision of the above field appears to have been made by the Settlement Department.

I therefore request that you will be so good as to obtain from the Director of Revenue Settlement and forward to me all the records in his office in connection with the sub-division of the above field as I require them for reference for the disposal of a petition presented to me by Mr Gompertz regarding the extent of Field No 447 A.

Proceedings of the Director of Revenue Settlement and Agriculture.

READ ~~letter~~ the following:—

Revenue Department

Proceedings of the Madras Government

Read letter from the Director of Revenue Settlement & Agriculture, Madras, dated 26th March 1886, No. 982, submitting Colonel Stuart's Explanation as called for in G.O. No. 1502 dated 5th March 1886.

Order thereon, 26th April 1886 No. 2477.

It is clear, from the papers read above, that V. Muthusami Moodeliar Head Writer of No. III Party, has been guilty of grossly fraudulent conduct and that, owing to the laxity of Colonel Stuart, the Deputy Director in charge of

of the Party, V. Muthusami Moodelly has been able to so arrange matters with one of the individuals concerned, as to render a conviction in a criminal Court, which would, had Colonel Stuart done his duty promptly and firmly, have been a certainty, a matter of some doubt.

2. Government regret that they are constrained to record their grave disapproval of the conduct of an officer of such long standing and service as Colonel Stuart but from what is before them there is no other course open & they must therefore severely censure his action in this case.

3. His Excellency the Governor in Council considers it undesirable that Colonel Stuart should any longer continue in charge of the Madura Settlement Party. He will

therefore

139

therefore at the termination of the leave granted to him in G.O. Mis: No. 2398 dated 20th April 1886, take charge of No II Party at present employed in the North Arcot District. Mr. Clerk, Deputy Director in charge of that Party, is permanently transferred to the Charge of No III Party.

4. A notification prohibiting the re-employment in the public service of V. Muthusami Moodelly will issue.

Proceedings of the Director of Revenue Settlement and Agriculture.

READ letter No. 148 dated 4th June 1886 from the Dy Director of Revenue Settlement, Party No. III requesting that Government may be addressed to allow him to draw pay at Rs 750 per mensem for reason stated.

Mr Clerk is referred to G.O. dated 13th May 1884 No. 638 Revenue. This being of later date, and embodying a decision by the Supreme Government in his particular case, must be taken as overruling the G.O. on which Mr Clerk relies. The Supreme Government had the entire case before them and they passed a ruling expressly personal in its effect. Under these circumstances the Ag Director thinks the chances of obtaining a reversal of this recent ruling so remote especially as the sum involved is trifling, that he does not think he would be justified in asking

the Madras Government to refer the matter to the Government of India, and he is of opinion that if he preferred the request it would almost to a certainty be rejected.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following letter from J. F. FINLAY, Esq., Officiating Under Secretary to the Government of India (Department of Finance and Commerce), to the Chief Secretary to the Government of Madras, dated Simla, 16th April 1884, No. 290 :—

The Accountant-General has forwarded a copy of the order passed by the Government of Madras, No. 1150, Revenue (Miscellaneous), dated the 19th September 1883, deciding that Mr. G. P. Clerk, a Deputy Director of Revenue Settlements, shall be permitted to receive Rs. 750 as pay and Rs. 37½ as fixed tentage, and requested that necessary corrections may accordingly be made in Schedule C of the Civil Travelling Allowance Code.

2. With reference to this order I am directed by the Governor-General in Council to invite your attention to the correspondence forwarded with your letter No. 307, dated the 12th February 1883, and to the order passed by the Government of India, in the Revenue and Agricultural Department, No. 633 R., dated the 15th June 1883, from which it will be observed that the consolidated salary of the two junior Deputy Directors was fixed at Rs. 750 a-month instead of the previous rate of Rs. 700 as pay and Rs. 87½ as tentage allowance. But as the existing incumbents, Messrs. T. Venkatachari and G. P. Clerk, were in receipt of higher emoluments (Rs. 700 as pay *plus* Rs. 87½ as tentage) than what was fixed in the order, it was specially provided that their respective salaries as well as that of Colonel Stuart should not be altered for so long as they remained in their present positions.

3. According to this order Mr. G. P. Clerk was to receive pay at Rs. 700 and tentage allowance at Rs. 87½ a-month, and not a consolidated pay of Rs. 750 with tentage of Rs. 37½. It was intended to leave Mr. Clerk in receipt of the same emoluments, but not in any way to improve his position. I am therefore to suggest that His Excellency the Governor in Council may be moved to consider whether the order of September 1883 should not be revised.

Copy forwarded to the Accountant-General, Madras, in reply to his letter, No. 930, dated 25th March 1884.

Order—dated 13th May 1884, No. 638, Revenue.

Miscellaneous.

Communicated to the Accountant-General.

2. Mr. Clerk's allowances will be treated as Rs. 700 pay *plus* Rs. 87½ fixed tentage.

The papers noted in the margin are forwarded in original (to be returned) to the Dy Director of Party No. III with the request that he will be good enough to depute a qualified Classifier or Head Classifier for the purpose of examining on the ground fields Nos. 171 and 172 in the Tiruvasi Village now said to be merged in fields Nos. 1 and 2 of the Madava-perumal Kovil and in No. 131 of the Manpidi-mangalam villages.

2. From the accompanying sketch it will be seen that the measurements of Nos. 171 and 172 as shewn in red ink do not tally with those of the 3 fields Nos. 1, 2 and 131 above referred to —

given in black ink.

3. It ~~alls~~ also appears from the Deputy Collector's letter to the Collector that the late Inspector Arunagiri Mood^r was deputed (time ~~were~~ not stated) to look into the above dispute but the result is not known. The Dy Director is requested to report whether there are any records in his office on the subject: and to report the result, if any, of the enquiry made by the Inspector.

4. According to the Settlement registers for the villages in question the fields No^s 171 and 172 were classified as V-2 while the fields No^s 1, 2 and 131 were treated as V-1. This difference in classification will be noted.

Read the following letters from the Deputy Director of Revenue Settlement No. III Party Madura

Forwarding an application for pension on behalf of T. Amirdalingam Pillay 3rd clerk of this office —	H. E. No 1[illegible] dated 17th June 1886.
Forwarding the Service Register of T. Amirdalingam Pillay & an Extract of his services verified by the Treasury Dy Collector, Tinnevelly —	H. E. No 1[illegible] dated 23rd June 1886

The following discrepancies are observed in the application received with the above:—

(1) The dates of commencement of applicant's service as classifier on Rs 15 & as office Gumastah on same pay

pay are shewn in the pension applica-
tion as 16th June and 5th August
1859 respectively, whereas in the
Service Register they are shewn as
14th June & 4th August 1859.

2) The dates of appointment as
classified on Rs 15 and as Record
keeper on Rs 20 on the 1st February
and 18th July 1862 respectively, as
well as the leaves enjoyed by the
applicant, as entered in the
application, are not shewn in
the service book. Thus the entries
in the application do not correspond
with those in the service book.
This should be rectified and the
application and the service book
revised so that the entries in the
one may tally with those in the
other.

. It appears from the remark
olumn, page 2 of the application
hat all the applicant's services

192

have been verified except during the period from 1st November 1863 to 31st December 1866. Of this, the Treasury Dy Collector, Tinnevelly, has verified from 1st August to 31st December 186[illegible] and this office from 1st November 1863 to 12th May 1866, as per statement herewith forwarded. The period which still remains to be verified is from 13th May to 31st July 1866. It has been found to be impossible to verify this period of 2 months and 19 days, as his name is not to be found in the pay bills for those months. The Dy Director will therefore be good enough to forward (1) a specific report as to the nature of the investigation made and the conclusion arrived at by him in respect of this service which is not veri-

[illegible]

(2) an affidavit from the applicant, × with translation if they are in Vernacular —
and (3) contemporary Evidence ×
of persons who were employed along
with the applicant.

3. From the list verified in this office as above stated, it will be observed that the applicant held the appointment of Extra Gumastah on Rs 20 + 25 from May to November 1864, acted as Head classifier in December 1864 and again from July 1865 to 31st March 1866, and as Temporary classifier from 1st April to 12th May 1866. It does not appear from the pay bills whether he retained a lien on his permanent appointment of classifier on Rs 20 while holding Extra and temporary appointments in view to reckoning the period as counting for pension. Information on this point should be obtained from the applicant and forwarded.

4. The Deputy Director is requested to supply the omissions and explain the discrepancies pointed out in the foregoing paragraphs and resubmit the papers as early as possible.

BOARD OF REVENUE, 23RD SEPTEMBER 1885, No. 2720.

PROCEEDINGS OF THE BOARD OF REVENUE.

READ—the following G.O., dated 5th August 1885, No. 1158, Financial :—

Read—the following letter from M.R.Ry. P. CHENTSAL RAO PANTULU GARU, Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 15th July 1885, No. 510 :—

I have the honor to submit my report on the working and results of the Stationery Department during the year 1884-85, with the usual Statements A to E.

2. The subjoined statement shows the value of the stock at the beginning of the year, that received and issued during the year, and the balance at the end of the year, compared with the results of 1883-84 :—

	1883-84.	1884-85.
	RS.	RS.
Value of stock at the beginning of the year	4,66,716	3,85,582
Value of articles received during the year	4,43,546	4,35,448
Total ...	9,10,262	8,21,030
Value of articles issued during the year...	5,24,680	4,95,732
Balance ...	3,85,582	3,25,298

3. The particulars of receipts are given below :—

	1883-84.	1884-85.
	RS.	RS.
1. Value of articles obtained by indent on the Secretary of State	2,76,277	2,82,799
2. Value of articles obtained by indent from Messrs. Baker and Co.	11,274	361
3. Value of Europe articles purchased locally... ...	2,134	804
4. Value of French foolscap purchased locally under G.O., dated 20th August 1881, No. 1523, Financial Department	61,795	3,748
5. Value of country articles purchased locally ...	48,661	1,13,016
6. Value of articles obtained from the Superintendent of Stationery, Calcutta	6,300	10,634
7. Value of articles obtained from the Gun Carriage Factory	1,469	2,060
8. Value of articles obtained from other departments...	2,578	227
9. Value of articles returned from officers	4,946	2,299
10. Value of articles issued in excess of the balance shown in the accounts and therefore entered under receipts to square the accounts	1,005	...
11. Value of excess in stock-taking (*vide* G.O., dated 13th December 1884, No. 2898, Financial Department)	6,948	3,577
12. Adjustments on account of the difference between the rates of prices adopted for issues and receipts, respectively...	20,153	14,660
13. Adjustments made with reference to Auditor's report	6	5
14. Value of articles entered in the accounts as issued but again brought to account, as their receipts have not been acknowledged by the officers concerned	...	217
15. Value of portions of damaged paper cut into smaller sizes	...	1,041
Total ...	4,43,546	4,35,448

Item 2.—The decrease under this item is due to the non-receipt of the supplies within the year.

20. Penny patent with pencils, small	14	14	0
Total ...	804	8	6

Item 3.—The European articles purchased locally are noted in the margin. Of these, Nos. 6, 7, 8 and 12 were purchased locally under G.O., dated 25th October 1871, No. 1620. Nos. 10 and 11 are books published in England, but they have always been purchased in India, though I cannot trace the authority under which they have been so purchased. The other articles were purchased to meet emergent requirements.

Item 4.—The decrease under this item is owing to the discontinuance of the use of the French foolscap. The small quantity purchased was contracted for previous to the order discontinuing the paper.

Item 5.—The large increase is due to the purchase in advance of the supply required to meet the indents of 1885-86 (*vide* G.O., dated 25th April 1884, Mis. No. 906, Financial Department).

Item 6.—Owing to insufficient stock, printing double foolscap, 24 lb., was obtained from Calcutta.

Item 7.—The increase is attributable to supply having been obtained in advance for 1885-86.

Item 12.—The nature of this item I have explained in my administration report for 1882-83. The large amount entered under this item is due to the difference in the prices of the articles noted below under receipts and issues respectively :—

The other items do not call for remark.

4. *Issues.*—The details of issues are given below :—

Item 1.—It is usual to commence the issue of stationery every year two or three months before its commencement. In doing so a larger supply was made in 1883-84 on account of 1884-85 than the supply made in 1884-85 on account of 1885-86. Hence the decrease in 1884-85.

Item 4.—This is a nominal issue. It appears again under receipts under country articles purchased. It was not usual to show the item separately, but I have thought proper to exhibit it in the accounts to secure correspondence between the figures in the ledger and the report.

Item 9.—I have explained the nature of this item in my last report.

The other items do not call for remark.

5. *Stock on hand at the end of the year.*—I have disposed of most of the surplus articles, and the stock on hand which is shown in paragraph 2 *supra* is not at all excessive.

6. *Substitution of the Country for European Articles.*—The Indian articles substituted for those formerly obtained from England are noted below :—

The saving effected by the purchase of these articles in 1884-85 is estimated at Rs. 6,662. The local purchase of penknives was recommended under a mistaken calculation that the price offered locally was less than the English rate, but I now find that the English rate is lower. The contractor has, however, since agreed to reduce his price. Arrangements are being made for the purchase of all the printing paper from the Bally Mills from 1886-87. The value of printing paper annually purchased is about 2,00,000 rupees.

10. The value of stationery sold is given in paragraph 4 as Rs. 9,587, whereas the proceeds of the stationery sold is given in the above statement as Rs. 10,444 (9,001 + 1,443). The following figures explain the difference :—

11. The value of supplies made by the Gun Carriage Factory at the close of the year is adjusted in the accounts of the following year. Hence the difference between the amount adjusted and the value of the articles actually received.

12. The value of paper, &c., sent to be sold out in public auction is shown in paragraph 4 as Rs. 47,799 (47,273 + 526). Of this, books worth Rs. 3,600 have not yet been sold and the remainder was sold for Rs. 2,762-11-3, but only a portion of the amount, *i.e.*, Rs. 1,477, were brought to account in 1884-85 and the rest was credited in the accounts of 1885-86.

13. *Building.*—The stationery building has been completed and the stationery stores are in a safe condition.

14. *Consumption of Stationery in the several Offices.*—The indents received for 1885-86 show the quantities actually consumed during 1883-84. They do not, however, show the entire stationery used in 1883-84, but only the quantities of such articles as were consumed in that year, and are again required in 1885-86. I am therefore unable to give the value of the total stationery expended in each office. I shall request the several officers to show in their future indents the entire quantity of stationery expended in the preceding year, whether all the articles of the kind consumed that year are indented for or not for the coming year. On examining, however, the consumption in 1883-84 of such articles as are given in the indents, I find great inequalities which I beg leave to notice below.

15. I shall first notice the stationery consumed in the several Collectorates, as it is by far the larger portion of stationery issued by me.

Writing Foolscap.—This paper is of three descriptions, *i.e.*, foolscap, hand-made, foolscap, machine-made, and foolscap, creamlaid, white. Their prices vary as shown in the margin. As will be seen from the following table, some Collectors have used paper of the more expensive kind, while others have used the less expensive paper. The inequality in consumption under all the three descriptions of paper is also conspicuous. The Collector of Godávari has spent 1,067 reams, while the Collector of Kistna has spent only 28 reams. The Collector of Ganjam has spent 670 reams, while in the most important Collectorate of Tanjore, only 204 reams were spent. In Kurnool 166 reams were spent, while in Bellary only 21 reams were expended. These and the other inequalities indicated in the following table require notice :—

Printing Paper.—The various descriptions of printing paper and their sizes and prices are shown in the margin. As in the case of writing foolscap, the consumption of this paper in the several Collectorates is strikingly unequal as will be seen from the following table :—

The quantity consumed in South Arcot is enormous, being 200 per cent. in excess of the quantity expended in Madura. The quantity expended in Cuddapah is 50 per cent. more than that expended in Bellary, and that expended in Kistna is 70 per cent. in excess of that spent in Godávari. The quantity spent in Salem is 140 per cent. more than that expended in Nellore, while that spent in Anantapur is more than three times the quantity spent in Malabar. I think that these and the other inequalities indicated in the above statement require investigation.

Ink Powders, Black.—The consumption in each Collectorate is given below. It is altogether inexplicable why 1,600 papers of ink powders were expended in North Arcot, while only 404 were expended in South Arcot, or why 1,462 papers were spent in Anantapur, while in Bellary 100 papers were found sufficient. Nellore spent 414 papers, while Trichinopoly and Tinnevelly spent only 137 and 134 papers, respectively. These inequalities also call for notice—

Red Ink.—As will be seen from the marginal table, the Collector of North Arcot spent 68 oz. against 24 in South Arcot, and the Collector of Vizagapatam expended 66 oz. against 16 in Ganjam. Anantapur spent 42, while Godávari spent 11 and Cuddapah 30 against 10 in Kurnool Salem spent 28, while Kistna spent 17 only. These differences also require explanation.

French Foolscap, 1st and 2nd sort.—The consumption in each Collectorate is noted below. The statement is not complete, as some Collectors have not given figures under this article, as its use has been ordered to be discontinued; but, so far as it is known, the consumption appears to be very unequal, as will be seen from the subjoined statement. The consumption in Nellore, North Arcot, South Arcot and Tinnevelly is a great deal in excess of that in the other districts :—

Districts.	French paper, 1st sort.	French paper, 2nd sort.	Total.

Sealing Wax.—The quantity of sealing wax consumed in each Collectorate is given below. The Collector of South Arcot spent 480 lb., while in Tanjore only 177 were expended. In North Arcot 293 were spent, while in Madura only 18 lb. were expended, and Malabar spent 130 against 80 in Kistna. Bellary spent 257, while Kurnool spent only 132, and in Vizagapatam 126 were expended against 88 in Ganjam. These and similar differences call for notice :—

Wax Cloth.—As will be seen from the subjoined table, the Collector of Vizagapatam used 558 yards of cloth, while Godávari used only 40 yards. The Collector of North Arcot used 289 yards against 140 in South Arcot, and the Collector of Kurnool 215 yards against 30 in Madura. South Canara spent only 4 yards, while Nellore spent 175 yards. These differences are remarkable :—

Country Paste Boards.—As in the case of several other articles, the consumption in North Arcot was enormous. This district spent 263 dozens, while in the most important Collectorate of Tanjore only 14 dozens were expended. Likewise in Nellore 63 dozens were expended, while in Bellary only 10 were spent. The consumption in each Collectorate is noted below:—

Cotton Twist.—The Collector of Malabar spent 50 lb. and the Collector of Anantapur spent 34 lb., while in no other Collectorate the quantity exceeded 29 lb. The quantity consumed in Anantapur is much in excess of that spent in districts of equal importance:—

Twine, Europe, and Twine, Country.—As will be seen from the following figures, the quantity consumed in South Arcot is nearly four times the consumption in North Arcot, and that spent in Madura is only one-fifth of that expended in Tanjore :—

			Twine, Europe.	Twine, Country.	Total.

Tape, White and Red.—The consumption in each Collectorate is noted below. It will be seen that Nellore spent 247 rolls, while Tanjore expended only 130 and Cuddapah spent 239, while Madura spent only 57. These and the other differences which the following figures disclose call for notice :—

There are differences in the consumption of the other articles of stationery also, but they are not strikingly large.

16. The consumption of stationery in 1883-84 in the District Courts and Courts of District Munsifs subordinate thereto was more satisfactory than in the Collectorates. There are, however, a few inequalities which I notice below :—

Demy, Machine-made.—The subjoined statement shows the quantity consumed in each district. It is not clear why in Ganjam 25 reams were expended, while in the comparatively more important district of Madura only two reams were spent. The consumption of 15 reams in Trichinopoly against 11 reams in Tanjore, of 12 in North Arcot against 7 in South Arcot, of 8 in Kurnool against 1 in Cuddapah, and of 12 in Vizagapatam against 8½ in Godávari, require explanation :—

The consumption of 429 reams in Madura against 100 in Tanjore, of 291 in Godávari against 25 in Kistna, of 242 in North Arcot against 33 in South Arcot, of 160 in Cuddapah against 6 in Kurnool, is remarkable. These and the other differences shown by the above statement call for notice.

Black Ink Powders.—As will be seen from the following figures, the consumption in Tanjore and North and South Malabar and Trichinopoly is excessive compared with the consumption in the other districts :—

The variations under other articles are not remarkable.

17. I have not noticed the expenditure of stationery in the offices at the presidency and in the other departments, as I have no means of judging whether the expenditure was reasonable or otherwise; but next year I shall compare the expenditure of 1884-85 in each office with that of 1883-84 and bring to the notice of Government any large variations I may discover. But rather than my doing this, I think it would be very useful if each head of the department and independent office is called upon to submit to Government annually a report on the expenditure of stationery in his own office and in each of the offices under his control, with any suggestions he may have to offer for any reduction of expenditure. The very fact that a report has to be submitted will ensure greater supervision and tend to economy. Perhaps it would also be useful if each head of the department prescribes the description of the paper that has to be used for each purpose, so that more valuable paper may not be used where inferior paper would answer the purpose as well. At present, there seems to be no uniformity of procedure in this respect. I presume a stock account of stationery is maintained in each office, but I get no abstract of it, and am, therefore, unable to say whether all the supplies made by this office are duly brought to account or not. Perhaps it would be useful if the annual report is made to show the supplies received during the year, as well as those expended, and the balance on hand at the end of the year.

Order—dated 5th August 1885, No. 1158, Financial.

The Stationery Office commenced the year 1884-85 with stock on hand to the value of Rs. 3,85,582 as against an opening balance in the previous year of Rs. 4,66,716. The receipts during the year amounted to Rs. 4,35,447 and the issues to Rs. 4,95,732.

The following statement compares the receipts and issues for the past five years:—

	Receipts.	Issues.
	RS.	RS.
1880-81	5,24,608	4,14,948
1881-82	3,95,208	2,71,246
1882-83	1,31,437	4,22,328
1883-84	4,33,546	5,24,680
1884-85	4,35,447	4,95,732
Average	3,84,049	4,25,787

It thus appears that while the issues were less than those of the preceding year, they exceed the average by Rs. 70,000. The Superintendent should keep in view and notice in future reports, not only the reduction of expenditure already effected by the substitution of country manufactures for imported articles, but also what additional savings may be expected by further changes in this direction. During the year under review, the saving thus effected is stated to be Rs. 6,662.

2. The remarks of the Superintendent as to the inequalities in the consumption of stationery in various offices where there are no *primâ facie* grounds for such expenditure should receive the careful attention of heads of offices. Strict orders might be given to subordinates prohibiting the use of the more expensive kinds when cheaper stationery would be equally suitable.

3. The Government are not disposed to call for the special reports from heads of offices suggested by the Superintendent at the close of his review, but rely on officers carrying into effect such measures of economy as may be found feasible on a close and constant scrutiny of the requirements of their several offices. With this object it is essential that there should be an annual stock-taking in each office, at some period of the year which may be found most convenient. The results should be recorded on the annual indent in columns specially provided for the purpose. The requisite alterations in the "form" should be drawn up by the Superintendent and submitted for approval. It will be necessary to show —

(1) Balance on hand as per previous stock-taking on
(2) Since received.
(3) Since issued.
(4) Balance as per accounts.
(5) Actual balance as verified by stock-taking.
(6) More.
(7) Less.
(8) Explanation as to cause of difference.

RESOLUTION—dated 23rd September 1885, No. 2720.

Communicated to all Collectors, the Superintendent of Stamps and the Commissioner of Salt and Abkári Revenue, whose special attention is drawn to paragraphs 2 and 3 of Government Order and paragraphs 14 and 15 of the Stationery Superintendent's report.

2. In District offices, the Treasury Deputy Collector should be held responsible for seeing that the requirements of the Huzur and Taluk offices are carefully scrutinized and strict economy enforced in the expenditure of stationery. Collectors, when taking stock, should personally satisfy themselves that every possible precaution has been taken to this end.

3. A revised form of annual indent will be circulated on receipt from Government.

READ letter No. 190 dated 12th ... 1886 from the Dy. Director of Revenue Settlement No. III Party. Reporting that Survey No. 672 of Kalayamuttur, Palni Taluq does not belong to the petitioner ... Muttaiyan Chetti &c.—for reasons stated.

The following endorsement will be passed—

"The Ag. Director has received a report on the subject of this petition from which it appears that the dispute regarding the land in Survey No. 67... has already been settled by the High Court in favour of Iswarap... Iyer and others. The claim made by

y the petitioners is
therefore utterly ground-
less and this appeal
therefore rejected."

Proceedings of the Director of Revenue Settlement and Agriculture.

READ letter No. 189 dated 6th July 86 from Mr. G. P. Clerk, Dy: Director Revenue Settlement Party No 3 requesting that the Local Government may be moved to address the Government of India once again in view to the reconsideration of their orders regarding his pay and allowances.

The Ag: Director regrets that he is unable to transmit Mr Clerk's representation to Government.

2. The question of the proportioning of that officer's pay and allowances has already been definitely decided by the Government of India.

3. What is now sought by Mr. Clerk is that his emoluments shall be improved that is, that in lieu of drawing as he did prior to the revision of salaries in the Settlement Department, Rs 700 p[er mensem] plus 87½ standing tentage, he may

receive Rs 750 per mensem pay which
could convey increased pensionary and
furlough advantages and in addition
Rs 37½ standing tentage. He would
thus be placed in a more advantageous
position than other Dy: Directors
of the 2nd class.

4: Government would probably
consent to Mr Clerk's now taking
the consolidated rate of pay, a
measure which it would appear
would have benefited him had
he originally been put upon it.

BOARD OF REVENUE, 27TH JULY 1886, No. 1694.

PROCEEDINGS OF THE BOARD OF REVENUE.

READ—again the following Proceedings of the Board of Revenue, dated 8th June 1886, Mis. No. 4228 :—

Read—the following letter from H. R. FARMER, Esq., Acting Collector of Trichinopoly, to the Secretary to the Board of Revenue, dated Trichinopoly, 27th May 1886, No. 1854 :—

I have the honor to request that the Board will be pleased to obtain the sanction of Government for the purchase of two cyclostyles. The instrument is said to be a very useful copying machine. The price of it is Rs. 30.

2. I heard of the machine at the Revenue Secretariat. I propose to try one machine in one of the taluks and the other in my own office, and to ask for more if the experiment proves successful.

Resolution—dated 8th June 1886, Mis. No. 4228.

Recorded, pending receipt of reply from Government to Board's Proceedings, dated 17th May 1886, No. 1112.

READ—again the following Proceedings of the Board of Revenue, dated 14th June 1886, Mis. No. 4420 :—

Read—the following letter from J. B. PENNINGTON, Esq., Collector of Tanjore, to the Secretary to the Board of Revenue, dated Tanjore, 28th May 1886, No. 2117 :—

With reference to the Board's Proceedings, No. 446, dated 18th February 1886, I have the honor to state that the twelve trypograph machines, received with the Board's Proceedings, No. 2594, dated 9th September 1885, have been distributed to the several offices noted in the margin, and they are reported to be very useful for taking copies of orders, &c. They save both time and labor, especially in taluks where many copies of circulars, orders, &c., are required for communication to village officers. The machines already supplied not being of the foolscap size, there is some loss of paper. It would therefore be better if they are made of that size. I request that you will be good enough to arrange for the supply of four more machines for the use of the offices noted in the margin.

2. Treasury Deputy Collector's office.

Read—the following Proceedings of the Board of Revenue, dated 17th May 1886, No. 1112 :—

ABSTRACT.—Submitting to Government reports of Collectors of certain districts on the trypograph machines supplied to them, and requesting that the Board may be empowered to prepare a complete indent for the presidency for the offices subordinate to them.

Order—dated 10th July 1886, Mis. No. 4082, Revenue.

The Board are authorized to submit a complete indent for the presidency, but the number of machines indented for should be limited to what they consider absolutely essential.

READ letter No 203 dated 25th July 1886 fr[om] the Dy Director of Revenue Settlement, Party No III submi[tting] financial results of proposed settlement for 16 villag[es] in the Perriyakulam taluk.

Read also letter No 230 dated 26th August 188[6] from the same Officer submitting financial result[s] of proposed settlement for 14 villages in the same talu[k].

The abstracts submitted with the foregoing letters show an increase in area of 4309 acres in dry and 242 acres in wet whilst in the proposed asses=ment there is a decrease of Rs 4283 in dry and an increase of Rs 13,813 in wet.

2. The decrease in dry is not more than that san=tioned by Government: and though the increase in wet seems heavy when compared with the present first crop assessment, The Dy Director explain[s]

that

that it is not really excessive because the Revenue assessment in this taluk is very low, the lands being rich and the irrigation exceedingly good.

3. The results are therefore approved and the abstracts returned.

4. The proposals in para 3 of the letter first read above regarding the 2nd Crop assessment are approved.

Proceedings of the Director of Revenue Settlement and Agriculture.

READ the following letter from the Collecto[r] of Madura No 1888 dated 19th Septem[ber] 1886:—

In returning the letter of the Ag: Dy: Director of Revenue Settle-ment in charge of No III Party for-warded for my opinion with you[r] of the 26th August, No 2631A, I hav[e] the honor to state that I do not agree with him in the views and proposals therein enunciate[d].

2. His object as far as I understan[d] is not only to make good to the state the loss of revenue amounting

Rs 67,000 caused by the application
of the dry rate sanctioned in G.O.
dated 30th July 1885 No 881 Revenue,
but also to show a saving of Rs 30,000
over and above that sum. This
is proposed to be done by the
transfer of the bulk of the lands
under class 8-1 to 7-1 which means
an increase of nearly a lakh of
Rupees for 200,000 acres of dry
land so transferred under the
table of money rates for dry
lands. The principle on which
this transfer is sought to be
justified, is, that when the
lands of a District are over-
assessed it is on the poorer soils
that a reduction should be made,
and in cases of underassessment,

It is on the richer soils that the increase should be made. 253

3. There is no denying that the dry lands of this District are overassessed, apart from the test of the percentage of unoccupied land - which appears to me to be on the whole a safe one - there is the opinion of my predecessor, formed after considerable experience - which opinion, has been ratified by the results of the application of the standard scale - vide para 5 of Mr Wilson's memorandum printed in Board's Proceedings dated 19th February 1884 No 563 - vide also paras 6 and 15 of the same memorandum

Hand by RO

4. The economic condition of

the

the ryot is a principal factor in all settlements, and if, as observed by Mr. Wilson,+ the accumulation of capital, the making of wells and other improvements and the extension of cultivation, which are the necessary adjuncts of such a condition, demand a reduction in the dry assessment of Periyakulam, I should think that the principle referred to in para 2 supra, however sound it may be in theory, should not be too rigidly followed.

\+ Vide para 13 of his memorandum.

5. If the economic condition of the cultivator is below par, and if his condition cannot

254

be raised without a reduction of the dry assessment, then the circumstance "that the ryots are "evidently willing to pay the pre "sent rates" is no justification for the continuance of the admittedly too high rates even on the richer soils.

6. The way in which the proposed increase is to be obtained appears to me to be also objectionable. There can be no objection to the first of the remedies referred to in para 7 of the Ag: Deputy Director's letter under remark on this account but that is now impossible as pointed out by him. The remedy proposed in para 9 is of the same kind

kind as that rejected by him in para 8. To my mind, this course appears objectionable in as much as it upsets a classification which has been arrived at after careful exa-mination of the soils and, in so doing, introduces the risk of inferior soils (sand) being classed with comparatively superior (Loam). I am disposed to view this matter in a diffe-rent light in spite of the assu-rance of the Ag: Dy: Director that the difference is not very great. In connection with this, I may invite attention to the fact that the increase of sorts from 3 to 5 under the

What could this to with

various

various class of soils appear
to have been adopted advised
-vide para 26 of Mr. Wilson's
memorandum referred to in
the Board's Proceedings No. 249
of 27th August 1885.

7. The question it seems to me
resolves itselves into this. Were
the dry lands over-assessed
before? Mr. Crole and Mr.
Wilson say they were, and
the latter applies the remedy
of reduction of rates in the
class of lands chiefly occupied
and paying higher rates. Mr.
Clerk says this is not right,
the fact of the ryot taking up
these lands and paying the
higher

higher rate willingly, proves that the reduction should not be in those lands but in the poorer soils. To set matters right Mr Clerk would accordingly alter Mr Wilson's classification. I cannot agree with Mr Clerk; if a reduction in rates is required at all, it must practically fall on the cultivated land, for, that is sure to be the most suitable. It is quite possible that if you raised the rates on the cultivated lands and lowered them on the uncultivated, the relative amount of cultivation would remain

as

as at present. It is very much a matter of experience and opinion. As it is, I am unable to find that sufficient cause has been shown to warrant any deviation from the course sanctioned by Government in their order No 881 Revenue, dated 30th July 1885.

Communicated to the Dy: Director of Revenue Settlement Party No III for information in reference to his letter No 216 dated 7th August 1886.

The Acting Director agrees with the Collector in thinking that no deviation in the rates already sanctioned is necessary

Sir,

In returning the letter of the Acting Deputy Director of Revenue Settlement in charge of the Party forwarded for my opinion with yours of the 26th August, No. 2631 A, I have the honor to state that I do not agree with him in the views and proposals therein enunciated

2. His object as far as I understand is not only to make good to the state the loss of revenue amounting to Rs 67,000 caused by the application of the dry rate sanctioned in G.O. dated 30th July 1885 No. 881 Revenue but also to show a saving of Rs 30,000 over and above that sum. This is proposed

to

to be done by the transfer of the bulk of the lands under class 8-1 to 7-1 which means an increase of nearly a lakh of Rupees for 100000 acres of dry land so transferred under the table of money rates, for dry lands. The principle on which this transfer is sought to be justified, is, that when the lands of a District are overassessed it is on the poorer soils that a reduction should be made, and in cases of underassessment, it is on the richer soils that the increase should be made.

3. There is no denying that the dry lands of this District are overassessed; apart from the test of the percentage of unoccupied land - which appears to me to be on the whole a safe one - there is the opinion of my predecessor formed after considerable experience which opinion, has been ratified by the results of the application of the standard scale - Vide para 5 of Mr. Wilson's Memorandum printed in Board Proceedings dated 19th February 1884 No: 563 - Vide also paras 6 and 15 of

the same memorandum.

4. The economic condition of the ryot is a principal factor in all settlements, and

Vide para 13 his Memorandum.

if, as observed x by Mr Wilson, the accumulation of capital, the making of wells and other improvements and the extension of cultivation which are the necessary adjuncts of such a condition, demand a reduction in the dry assessment of Periyakulam, I should think that the princip[le] referred to in para 2 supra, however sound it may be in theory, should not be too rigidly followed.

5. If the economic condition of the Cultivator is below par and if his condition cannot be raised without a reduction of the dry assess-ment, then, the circumstance "that "the ryots are evidently willing to pay the present rates" is no justification for the continuance of the admitted too high rate even on the richer soils.

6. The way in which the proposed

increas[e]

increase is to be obtained appears to me
to be also objectionable. There can be no
objection to the first of the remedies referred
to in para 7 of the Acting Deputy Director's
letter under remark on this account but
that is now impossible as pointed out by
him. The remedy proposed in para 9 is
of the same kind as that rejected by
him in para 8. To my mind this
course appears objectionable inasmuch as
it upsets a classification which has been
arrived at after careful examination of
the soils and in so doing introduces the
[illegible]k of inferior soils (sand) being classed
[illegible] comparatively superior (Loam). I am
disposed to view this matter in a different
light in spite of the assurance of the
Acting Deputy Director that the difference
is not very great. In connection with this,
I may invite attention to the fact

that

that the increase of sorts from 3 to 5 under
259
the various classes of soils appears to have been
adopted advisedly. Vide para 26 of Mr. Wilson's
Memorandum referred to in the Board's
Proceedings No. 2491 of 27th August 1885.

7. The question it seems to me resolves itself into this. Were the dry lands overassessed before? Mr Crole and Mr Wilson say they were, and the latter applies the remedy of reduction of rates in the class of lands chiefly occupied and paying higher rates. Mr Clerk says this is not right, the fact of the ryot taking up these lands and paying the higher rate willingly proves that the reduction should not be in those lands but in the poorer soils. To set matters right Mr Clerk would accordingly alter Mr. Wilson's classification. I cannot agree with Mr Clerk; if a reduction in rates is required at all, it must practically fall on the cultivated land, for that is sure to be the most suitable. It is quite possible

the

that if you raised the rates on the cultivated
lands and lowered them on the uncultivated,
the relative amount of cultivation would
remain as at present. It is very much
a matter of experience and opinion. As it is,
I am unable to find that sufficient
cause has been shown to warrant any
deviation from the course sanctioned by
Government in their order No. 881 Revenue,
